NOTICE OF MINOR MODIFICATIONS TO JOBSITE HOURS

Dear Maynard Crossing neighbor,

Nittany Construction Inc. is the general contractor for the Market Basket located in the Maynard Crossing project. We have and will continue to try and be the best neighbors we possibly can during construction.

We are at a point in the project where concrete floor slabs will be poured and spray insulation will be installed. These operations will require a longer uninterrupted period to complete than is currently allowed under the Planning Board's authorized weekday construction hours (which conclude at 6PM).

The Planning Board has authorized limited and temporary extended hours to complete these two steps:

1. To facilitate proper concrete floor slab placement and finishing, crews are anticipated to be onsite past the set forth curfew on the following dates; 4/14/2020, 5/6/2020, 6/9/2020, 6/23/2020, 7/21/2020. Please note that the dates provided are subject to change due to unforeseen conditions that may affect the ability to pour the concrete. Any changes to these dates will be noticed on the Town of Maynard website.
2. In order to provide a safe working environment for other trades on the project, the spray insulation installation is to be performed on the 2nd shift, from approximately 3pm-12am. We expect the operation is scheduled to begin on or about 5/4/2020.

The anticipated duration of work is approximately 3 weeks.

The Planning Board has directed that this work be completed with absolute minimum disruption to the surrounding neighborhoods. We are aware of the close proximity of our neighbors and assure you we will do all we can to minimize any disturbance. Should there be circumstances you feel fall outside what we have proposed, please feel free to reach out to me at: 508-339-4747.

We are very much looking forward to the arrival of Market Basket to Maynard, and hope you are as well.

Sincerely,

Andrew Gollenberg
Project Executive
Nittany Construction, Inc.
